iGenius test

Ques 1. You are kidnapped by a crazy gangster who has a 6-shot revolver.

Initially all six chambers of the cylinder are empty.

He puts two bullets into adjacent chambers (in front of you)...spins it and closes the cylinder...

He now puts the gun to your head & pulls the trigger...
Luckily you survive....

He is now going to pull the trigger again... but before he proceeds he asks you for your preference whether:

1 - He should re-spin the cylinder and then pull the trigger...
or

2 - He should pull the trigger right away (without spinning)...

(If you survive this shot as well... then you will be allowed to go home.)

So, which option would you prefer to maximize your chances of survival...

Ques 2. You are trapped in a room with no food.
After 2 days, You are given 4 bottles of milk.
... out of which one bottle is poisonous.

For testing, there is a rat to which you can
feed samples of milk and try to find out which
bottle is poisonous.

But the challenge is that the poison takes
effect exactly after 10 hours from feeding.
And you have only 24 hours in your hand....
within which you must consume 3 bottles
of milk to satisfy your hunger...
else you will die.

PUZZLE:

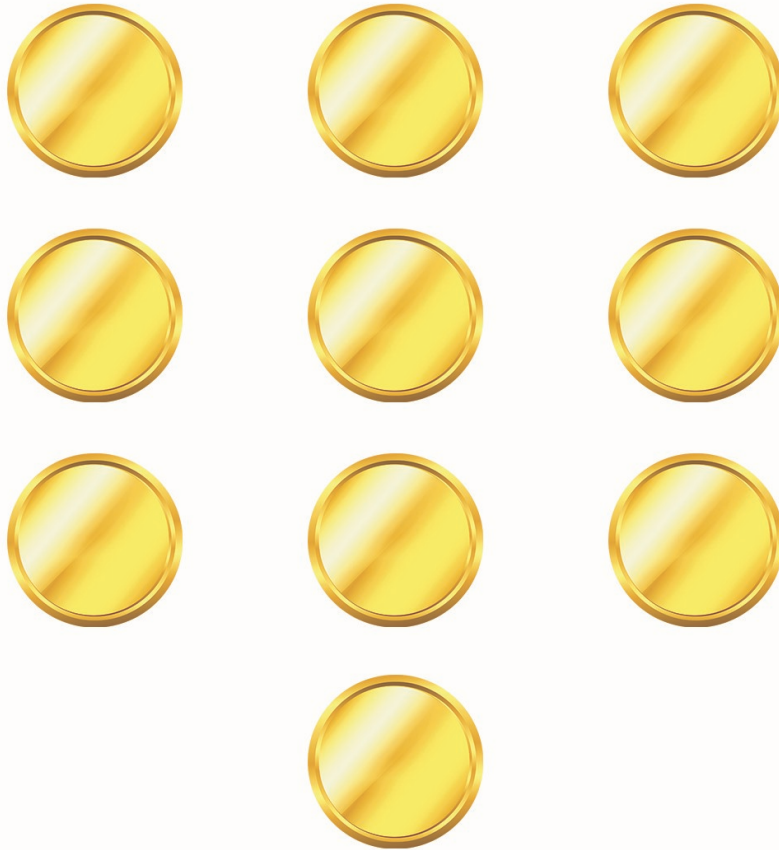

What strategy would ensure that you drink 3 bottles of milk
within 24 hours. (You have a timer)

ANSWERS @ALIFS.ORG

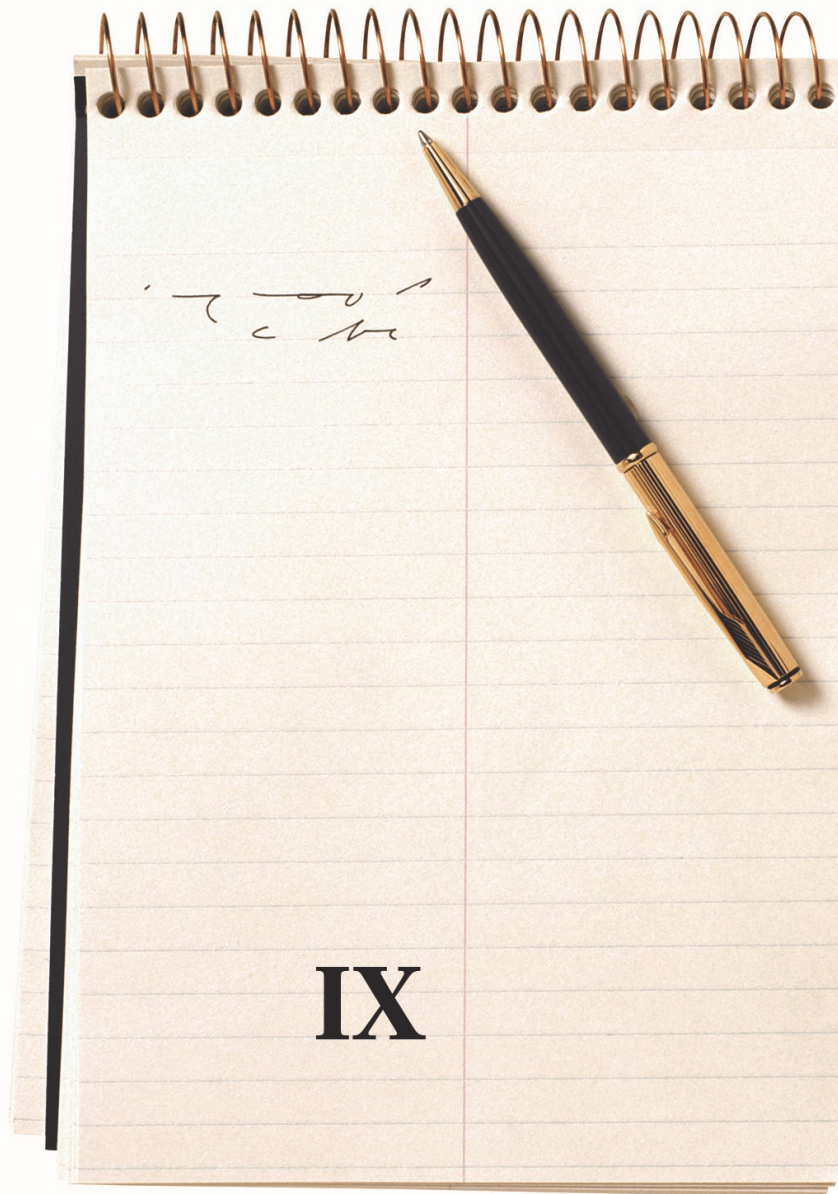

Ques 4. How can you place ten coins into three glasses so that each glass contains **odd number of coins** ?

Ques 5. You are given a paper that has Nine(IX) written on it. Now you are given a pen and asked to subtract three from this nine. The challenge is to do it without lifting the pen from the paper ?

Ques 6. A customer in hardware store asks:-

Customer: How much will ONE cost?

Shopkeeper: Twenty rupees.

Customer: How much will TWELVE cost?

Shopkeeper: Forty rupees.

Customer: I will take ONE HUNDRED
AND TWELVE.

Shopkeeper: Ok, please pay sixty rupees.

What is the customer buying?
